## Depend Upon the Strong Arm of Business.

The Strong Arm of Business protects your good health and the entire nation against fraud, deception, and ill-advised buying. It enables you to buy with forethought and knowledge instead of by blind instinct. It guides you to efficiency in buying the necessities and luxuries of life and aids you in the economical management of your household.

The Strong Arm of Business is Advertising.

It weilds its most powerful protection through the advertising columns of the daily newspaper, because through this medium it reaches most frequently the greatest number in each community.

You should appreciate the importance of this protection by reading the advertisements in THE NEWS closely and constantly every day. This duty you owe yourself, because it saves time and money. It enable you to purchase from reputable dealers the best of everything at the lowest possible prices.

### Texas Hardware Dealers.

Dallas, Tex., Feb. 10.—Hardware and implement dealers from all parts of Texas are gathering in Dallas for the annual convention of their state association, which will meet tomorrow. The sessions will continue over Wednesday and Thursday.

### Thomas A. Edison is 66.

West Orange, N. J., Feb. 10.—Thomas A. Edison, the famous inventor, will be 66 years old tomorrow, having been born February 11, 1847. No special plans have been made for the celebration of the anniversary and the inventor will probably observe the day by working as hard as usual in his laboratory on Valley road.

## THE LAW SAYS:

"We guarantee your money against loss if deposited in the FARMERS STATE BANK of Ada, because the Guaranty Law is backing that bank."

The importance of pure, fresh Drugs is seldom realized by many people. Even in good health you cannot use decayed vegetables or meats. It would not strengthen you as your food is intended to. Neither do you care for fruits or flowers unless they are fresh. You do not take drugs unless you are already ill, so it is even of more importance that they should be pure and fresh. We give you the freshest drugs that money can buy. All prescriptions are properly prepared. We ask for your business on these principles. Isn't it good policy for you to patronize us on them.

## UNIVERSITY DEFEATS ADA NORMAL

COLORS OF E. C. N. LOWERED FOR FIRST TIME DURING PRESENT SEASON.

E. C. N. lost its first game this season to Oklahoma University at Norman Saturday night. The game was one of the fastest games the Normalites have ever played. The O. U. score although nearly double ours does not mean that the "Uni" team is twice as good as ours. The way they beat us was by means of their superior goal shooting. When "big Tot" got the ball she made two. But she had to work awful hard to get the occasional two by means of which they rolled up their score.

The first half was three minutes old before the first count was made and that was by the Normal. Almost immediately following "Tot" shot a long one for O. U. After another two or three minutes play the Normal scored another and again "Tot" scored a field goal for the O. U.'s. During the remainder of the half the varsity scored two more field goals. The half ended Oklahoma 8, East Central 4.

Almost at the beginning of the second half O. U. got another and then came the feature play of the game—a goal from center by Maggie Cameron, East Central's fast second center. Then "Tot" got riled up and began to shoot goals when ever she got hold of the ball. East Central got one every now and then and the half ended Oklahoma 21, East Central 11. Each side scored one free throw.

The game was fast, snappy and clean throughout, and the packed house which saw it said that it was by far the best game ever seen on the O. U. court.

The officials, Mr. Castle, of O. U., and Mr. Wilson of E. C. N. were fair and impartial in their decisions, none of which could be questioned in the least.

East Central had the Varsity out classed both in team work and speed but Tot the big O. U. forward slipped a few by us.

Plans are under way to play a third game on some neutral court but as yet nothing definite has been done. East Central yet has the best record of any team in the state and everybody believes she will keep it.

### JOHN MCKINLEY AND

### HIS GATLING GUN

If L. Rosenfield is to be believed, John McKinley is about as crooked in his shooting as a man could well be. He says that a night or two ago L. H. Woodward notified Mr. McKinley that a burglar was trying to break into his home. Mr. McKinley grabbed a repeating gatling gun, slipped around the place until he ran up face to face with the supposed burglar, and at a distance of about two feet turned loose. The only effect produced was a roar from the gun, for the bullet went wild. Then it was discovered that the supposed burglar was only an old cow. Mr. Rosenfield insists that the crooked shooting was only an index to the general character of the shooter.

### WEBB BOOZE BILL

Washington, Feb. 8.—With a notable number of Democratic members absent from the proceedings, the House late this afternoon, by the overwhelming vote of 240 to 65, passed the Webb bill forbidding the shipment of intoxicating liquors of any description into "dry" territory, when said liquors are intended to be received, possessed, sold or in any manner used, either in the original package or otherwise, in violation of any law of such state, territory or district of the United States. The measure is the most drastic aid to the enforcement of local prohibition ever attempted by congress and there is considerable difference of opinion among members as to the constitutionality of the enactment. The pressure for the bill from temperance organizations of all kinds having strong ramifications in almost every state of the union was irresistible and members opposed to it did not have the hardihood to attempt to withstand this widespread and insistent demand. By a considerable number, as the vote by which the bill passed, amply demonstrates.

### OKLAHOMA VITAL STATISTICS FOR MONTH OF DECEMBER

Oklahoma City, Ok., Feb. 8.—There are about two hundred cases of smallpox in Oklahoma at present, chiefly confined to the southeastern part of the state.

The latest statistical report compiled by the State Health Department covering the month of December, shows that smallpox was reported from nineteen counties and that shortly after Jan. 1 calls for help began coming in from the southern counties. During December ninety cases were reported and no deaths, but reports being received by the department at the present time show that a great many deaths are occurring where the disease has appeared in a malignant form.

There has been no smallpox epidemic in Oklahoma for the past two years and the present situation is the worst for several years. The department is recommending compulsory vaccination laws, which it is claimed would do away with the necessity of quarantine against the disease and would eventually stamp it out almost entirely in Oklahoma.

The December report covering other contagious and infectious diseases, made by the Health Commission, shows as follows: Diphtheria, 127 cases, 15 deaths; scarlet fever, 118 cases, 3 deaths; tuberculosis, 83 cases, 56 deaths; pneumonia, 271 cases, 90 deaths. The number of births during December was 2,570 and the number of deaths 734.

### D. RUSHING PASSES AWAY

D. Rushing, one of the early settlers of Ada, died Saturday night at his home in North Ada after a long illness. The funeral services were held at the family residence Sunday afternoon by Rev. C. Stubblefield, after which the remains were laid to rest in Rosedale cemetery with the honors of the Odd Fellow fraternity of which deceased was a loyal member.

Mr. Rushing was a man who made many friends and very few enemies. He lived according to the Golden Rule and was a kind and affectionate husband and father and a good neighbor, who will be badly missed by all. He leaves a wife and four children to mourn his loss.

## REVOLT IN MEXICO CITY

MUTINOUS SOLDIERS RELEASE REYES AND DIAZ AND BESIEGE MADERO—REYES KILLED.

City of Mexico, Feb. 9.—The army in revolt in the City of Mexico today took possession of the public buildings, shot down Federal adherents in the streets, released Gen. Felix Diaz, leader of the Vera Cruz revolt, from prison, and, falling into line under his banner, practically captured the Mexican capital.

Francisco Madero, President of the Republic, and members of his Cabinet, took refuge in the National Palace, where they were besieged, but, with some loyal troops at their back, succeeded in holding the palace from the assaults of revolutionists.

Madero's family has taken refuge in the Japanese Legation, and tonight the president is making a fight, desperate in its efforts, against what appears to be enormous odds, for the retention of his power.

Gen. Diaz, who is the nephew of the deposed president, is now at the head of a majority of the capital troops, including most of the artillery, and is in possession of the arsenal in the city and the powder works near by.

Madero is relying on the loyalty of Gen. Blanquet, who has been summoned from Toluca, forty miles distant, but Blanquet has only 1,000 men under his command and the rebels are confident of defeating him should he refuse to join the revolt.

The day was marked by four separate engagements, the most sanguinary of which took place in front of the National Palace. But the most important was that which terminated in the formal surrender of the troops in the artillery barracks.

It is believed that not less than 250 people were killed in the fighting. Among the number was Gen. Bernardo Reyes, a strong adherent of Porfirio Diaz, and ex-Secretary of War.

The mutinous troops are led by students of the military school at Tlalpama, a suburb. They marched to the prison to which Gen. Diaz had been transferred for safe keeping and released him.

Gen. Bernardo Reyes was also freed from the Santiago military prison, there being no resistance in either quarter.

To the army of mutineers quickly came portions of the First Cavalry, Twenty-Fourth Cavalry and Twentieth Infantry. Gen. Manuel Mondragon, retired, was in command, but gave way to Generals Diaz and Reyes.

At 8:30 o'clock the first encounter with loyal troops occurred in front of the National Palace, and Gen. Reyes, whose long record as an army officer was broken little more than a year ago by a farcical revolt, was instantly killed by a bullet through the head. Many fell in this engagement, and among the scores of bodies which strewn the streets were those of minor officers, women and boys of the lower classes and members of the great crowd of spectators which had gathered at the firing of the first shot.

### PEOPLE SHOULD GUARD AGAINST APPENDICITIS

Ada people who have stomach and bowel trouble should guard against appendicitis by taking simple buckthorn bark, glycerine, etc., as compounded in Adler-I-Ka, the German remedy which became famous by curing appendicitis. A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY because this simple mixture antiseptizes the digestive organs and draws off the impurities. ### Baseball Men Assemble.

New York, Feb. 10.—Several days of important doings in baseball circles opened here this afternoon, when the magnates of the International League assembled for their annual spring meeting, which will be followed tomorrow by the schedule meetings of the two major leagues.

Comparatively little business confronted the rulers of the International League outside of the election of officers and the adoption of a schedule. Apparently there was no opposition to the re-election of President Edward Barrow and no changes in the circuit were contemplated.

Nearly all of the club owners and managers of the National and American leagues are in town for their meetings tomorrow. The general expectation is that no friction will develop in either meeting and that everything will be harmonious. Most interest centers in the possibility of some important trades resulting from the gathering of the managers.

The schedules of both leagues were completed by the joint committee more than a month ago and only await ratification at the hands of the magnates. Before the end of the week the schedules probably will be made public, so that the followers of the game all over the two circuits will be able to figure out how their favorite teams have been treated in the distribution of the season's most desirable holiday, Saturday and Sunday games.

likely to be left as a wall flower at this occasion, he will be royally entertained at the Elk and Moose clubs. Still other forms of entertainment will be provided, the nature of which is as yet a profound secret. Other towns are anxious for a visit of the editors, and Sunday a special train will be run to Pawhuska for their benefit, and at 6 o'clock in the evening a royal feast will be served the bunch at Tulsa. Verily, the editors seem to be more popular away from home than where they are so well known.

That Otis Weaver's heart is still very much with Ada was shown not long ago when the Normal girls played the basketball team of the Shawnee High school. Weaver had just started to a ball but when he found that the game was to be pulled off, he changed his program and went to that instead, rigged out in his claw hammer coat and two-story hat. Arriving there he rooted for Ada all the way through the game, and incurred considerable displeasure on the part of Shawnee because of his whooping it up so lively for Ada.

**Steel Hearing Resumed.**  
New York, Feb. 10.—After a recess of ten days the hearings in the suit to dissolve the United States Steel Corporation were resumed today. The corporation's side of the case is now to be taken up, the government having practically concluded its introduction of testimony. Among the witnesses whom the steel attorneys expected to call are Judge Elbert H. Gary, chairman of the corporation; James A. Farrell, president, and Henry C. Frick, who is one of the directors.

## NEWS FORECAST OF THE COMING WEEK

Washington, D. C., Feb. 8.—Monday is the day fixed by the senate for taking a final vote on the much-discussed Sheppard-Kenyon bill prohibiting shipments of liquor into states where prohibition laws are in effect.

Hearings in the suit to dissolve the United States Steel Corporation are to be resumed Monday. The government has practically concluded its introduction of evidence. The corporation will now present its side of the case. Among its witnesses probably will be Judge Elbert H. Gary, chairman of the corporation; James A. Farrell, president and Henry C. Frick and other of the directors.

The two houses of Congress will meet in joint session in the hall of the House on Wednesday for the purpose of counting the electoral votes and formally declaring the election of Woodrow Wilson and Thomas R. Marshall as President and Vice-President, respectively.

Monday morning is the time set for the start of the suffragists from New York City on their "hike" to Washington. The marchers expect to arrive in the capital on March 1, in time to participate in the great suffragist parade and demonstration to be held on the eve of the inauguration of President Wilson.

Wednesday, the anniversary of the birth of Abraham Lincoln, will be observed as usual in many parts of the country. One of the most notable features of the celebration will be the dedication of Lincoln Hall, a magnificent building erected at the University of Illinois as a memorial to Lincoln.

Progressive leaders from all parts of the country will attend the Lincoln Birthday banquet at the hotel Astor in New York city. Colonel Roosevelt and former Senator Beveridge of Indiana will be the principal speakers.

Missouri Republicans will hold a banquet in Kansas City with Governor Eberhart of Minnesota as the chief speaker. Baron Von Bernstorff, the German ambassador, will speak at the banquet of the Lincoln Memorial Association in Springfield, Ill., and Senator Borah of Idaho will be heard at a similar gathering in Baltimore.

The late Vice President James S. Sherman will be honored by memorial services in the senate Saturday. President Taft, his cabinet and a large number of distinguished people will attend.

Michigan Republicans will hold a state convention at Lansing Tuesday to name candidates for the supreme court bench and minor state officers to be voted for at the spring election.

Brig. Gen. James Allen, chief signal officer of the army, will reach the age limit for active service Thursday. On the same day Rear Admiral Joseph B. Murdock will be retired from the navy on account of age.

Other events of the week will include the schedule meetings of the American and National baseball leagues in New York city, the meeting of the legislative assemblies in Alberta and Nova Scotia, and a special convocation of Queen's University, at Kingston, Ont., to confer the honorary degree of LL. D. on the Duke of Connaught, Governor General of Canada.

## Stork and Cupid Cunning Plotters

Many a New Home will Have a Little Sunbeam to Brighten it.

There is usually a certain degree of dread in every woman's mind as to the probable pain, distress and danger of child-birth. But, thanks to a most remarkable remedy known as Mother's Friend, all fear is banished and the period is one of unbounded, joyful anticipation.

Mother's Friend is used externally. It is a most penetrating application, makes the muscles of the stomach and abdomen pliant so they expand easily and naturally without pain, without distress and with none of that peculiar nausea, nervousness and other symptoms that tend to weaken the prospective mother. Thus Cupid and the stork are held up to veneration; they are rated as cunning plotters to herald the coming of a little sunbeam to gladden the hearts and brighten the homes of a host of happy families.

There are thousands of women who have used Mother's Friend, and thus know from experience that it is one of our greatest contributions to healthy, happy motherhood. It is sold by all druggists at \$1.00 per bottle, and is especially recommended as a preventive of caking breasts and all other such distresses.

Write to Bradfield Regulator Co., 131 Lamar Bldg., Atlanta, Ga., for their very valuable book to expectant mothers. Get a bottle of Mother's Friend to-day.

## Boy Scouts to Celebrate.

New York, Feb. 8.—The seven days beginning today will form a red-letter week for the Boy Scouts of America. The week has been set aside for the celebration of the third anniversary of the introduction of the movement into this country. A meeting of the National Council will be held in this city attended by delegates from many states. The observance of the anniversary, however, will not be confined to any one place. The chief celebrations will be held next Wednesday evening, when all the scouts of the country, at promptly 9 o'clock will get together in their respective councils and give the scout salute and repeat the motto and oath of their organization. Greetings from the National Council in session in this city will be read to them.

"The Boy Scouts of America," the name under which the movement in the United States is known, was incorporated three years ago today. Already there are upwards of 300,000 members distributed among 250 local councils in as many cities throughout the United States. The national organization is maintained by public

subscriptions. Any boy over 12 years of age is eligible to become a Scout. The movement has adapted itself not only to the wealthy classes, but to the boys of the slums, the newsboys and to foreign boys alike. There are many cities now so thoroughly organized that every phase of boy life in the community is being reached by Scout activities.

President William H. Taft is the honorary president of the organization in the United States and Colonel Theodore Roosevelt is the honorary vice president. The active president is Colin H. Livingstone of Washington, D. C., and the Chief Scout is Ernest Thompson Seton, the famous traveler and naturalist. Among the members of the executive board are such well known men as Mortimer J. Schiff, the New York banker, Prof. Jeremiah Jenks, of Cornell University; Robert Garrett, of Baltimore, and Milton A. McRae of Detroit.

Proof has come to me that parties other than deputies under bond are doing illegal weighing. I have only one deputy, Jesse Warren, at my county scales across the Frisco tracks, and all other parties are hereby notified that if same is done again I will collect the penalty for each load. The courts have decided that no one except legally appointed deputies have any authority to weigh and I am certainly going to enforce my rights. This is my last warning. Respectfully,  
SHERWOOD HILL, County Weigher.

## COUNTY OFFICES TO BE CONSOLIDATED

Oklahoma City, Ok., Feb. 10.—There is to be a radical reduction in the number of offices in counties of less than 45,000 population, according to agreed bills reported to the house of representatives from a special committee of the House and Senate.

The Morris bill, abolishing all township offices, and conferring the duties thereof upon County Commissioners, was reported for passage. Representative Mitchell of Garvin and Carr of Muskogee, acting for the House, and Senators McIntosh and Franklin for the Senate, reported committee substitutes abolishing other offices. Since the Senate voted 23 to 14 today not to abolish the office of State Highway Commissioner, the issue having been based somewhat upon activity of the township organizations against the department, it is predicted the Senate would accept a bill wiping out all forms of township government. This is one of Gov. Crouce's recommendations.

In the Mitchell-Carr bills, abolishment of elective officers is effective the first Monday in January, 1915, which allows the present incumbents to complete their terms. One measure abolishes the office of Assessor in all counties, and confers the duties upon the county treasurer. In counties of less than 20,000 people offices of less than 20,000 people offices of county clerk, register of deeds and county clerk are abolished, and the duties transferred to the district clerk. Offices of the assistant county attorney and the county court reporter are also abolished.

In counties of a population between 20,000 and 40,000 the district clerk becomes also the clerk of the county court, and the county clerk takes on the duties of the register of deeds. The county court reporter's position is abolished. No extra compensation is allowed by reason of the combining.

In counties of not less than 35,000 people not more than 45,000, the county commissioners, in their discretion, may allow one assistant county attorney at a salary of \$100 a month; over 45,000 people, one or more assistants, the first to receive \$150 and the second \$100 a month.

For the remaining period of the county assessor's tenure of office he is to be paid a salary instead of fees. In counties of 10,000 people the salary is \$1,800 a year, between 10,000 and 20,000, \$50 for each additional 1,000 population, and so on until the salary of \$2,000 a year is provided in counties of more than 60,000 people. The county commissioners may allow deputies.

## Fort Gibson Gets School for Blind.

Oklahoma City, Feb. 6.—The senate Wednesday evening passed in committee of the whole the bill by Senator Garrett locating permanently the Oklahoma school for the blind at Fort Gibson. The appropriation carried by the bill \$100,000 was cut to \$75,000. The money was to be taken from the general revenues of the state, according to the original provision. Senator Sorrells offered an amendment taking the money from the public building fund, but it failed of passage because of the opposition against taxing this fund for any more requirements.

An amendment was offered by Senator Burford for the money to be furnished from the fish and game fund. Senator Roddie contended that this fund could not be available without legislative action. This was what was proposed to be done, but finally Senator Burford withdrew his amendment which was later offered by Senator Thompson, and went through with the understanding that the legislative action necessary to make the money available would be done.

The section of the bill appropriating \$10,000 to buy additional ground for the buildings of the school was stricken out by an amendment by Senator McIntosh, and in lieu of that the people of Fort Gibson, are required to donate not less than ten acres of ground for the school.

Amendments were offered to the bill substituting Waurika, El Reno and Oklahoma City for Fort Gibson, but all failed of passage.

### House Passes Three Bills.

Oklahoma City, Feb. 10.—The house of representatives killed three bills Thursday and passed three, and the chief of the latter was by Curry and Williams of Tulsa, to prohibit the employment of foreign labor on public contracts, or those paid for out of public taxes.

The other bills passed were as follows: By Matthews, relating to necessary parties on appeal; by Lemon, to require railroads to maintain crossings on thoroughfares, etc.

The Curtis bill, to take the depositing of county funds out of politics, and require them divided among the banks of the counties according to their capital stock, failed of passage. 58 votes being registered against it to 39 in favor. The bill by Coyne and Curry, to put the enforcement of the child labor law in the hands of the state labor commissioner, lost by a vote of 42 to 39. The bill by Cook, to enable counties and municipal corporations to refund their outstanding indebtedness was beaten by a vote of 31 to 57 against, after a brisk fight.

## FRISCO DEMONSTRATION

AGENT COMING WEDNESDAY

F. S. White, agricultural and horticultural commissioner of the Frisco, has notified Agent McNair that his exhibit car will be here Wednesday on the 11:33 train, instead of on the 15th in conjunction with the hog and poultry train as announced before. He asks that all possible be done to get a good crowd both afternoon and evening. On the occasion of his last visit to Ada he delivered a most instructive talk on the work he is doing and the importance of improving the crops by means of good seed.

The Ada Ice and Cold Storage Co. had closed a contract with the Frisco to furnish all the ice required by the road at Francis. This contract, which will amount to several hundred tons per year, has formerly been held by a Tulsa concern, but the Ada factory is coming into its own.

Regular meeting tonight at 8 o'clock. S. M. TORBETT, E. R. B. M. BOBBITT, Sec'y.

Just Hard Luck. That is the title of a brilliant drama that will be presented at the De Sota this evening, and it will be hard luck for the citizen of Ada who does not see it. A Night of Terror, has none of the terrible about it but is a rip roaring comedy in which a few thousand laughs are crowded into a fifteen minutes picture. Coming tomorrow: The Paymaster's Son.

### Notable Conference of Educators.

Philadelphia, Pa., Feb. 7.—The educational policy of the entire nation will be discussed at a notable conference of educators to be held in this city at the end of this month. The occasion will be the annual convention of the Department of Superintendence of the National Education Association of the United States. Several thousand members from all parts of the country will participate in the program, which will include addresses by some of the world's greatest educators.

In conjunction with the convention of the Department of Superintendence special meetings will be held by the National Council of Education, the National Society for the Study of Education, the Society of College Teachers of Education, the National Committee on Agricultural Education, the International Kindergarten Union, the National Association of School Accounting Officers, the American School Peace League, the National Congress of Mothers and Parent-Teachers' Association and several other educational bodies of national scope.

### SPECIAL NOTICE

## THE BOOSTER COMES TO ADA ONCE MORE

H. R. Snyder, of Petersburg, Ind., who has extensive interests in this vicinity, and who also takes every optimistic view of the future of Ada, arrived today and when seen by the News reporter gave out the following interview:

"I am glad to find time to visit Ada again and mingle with your wide-awake citizens for a few days. I was here last June just at the time your bumper fruit crop was ripening and it was a sight to see the trees laden with their delicious fruit. Soon after I returned home it was not long before carloads of peaches from your

section were finding a ready market throughout our part of the country. Your fruit was being shipped to our hub market and reshipped and distributed among the consumers all over southern Indiana and elsewhere. Mr. J. T. Fuller, the president and general manager of the Fuller Basket Manufacturing Co., of Evansville, Ind., with whom I am personally acquainted, told me that they were unable to fill the order for fruit baskets that came to them from your section of the country, and spoke especially of Ada and Pontotoc county, in fact he visited Ada during the shipping season and met a number of my friends, among whom, he spoke of was Mr. Tom Hope. From what I can learn about the rapid development of fruit orchards throughout your immediate section it will only be a few years until Pontotoc county will be one of the leading counties in your state for berries and fruit of a superior quality and flavor. Your district being so favorably blessed with transportation facilities that your shippers can reach the hub markets at reasonable freight rates. The thought has come to my mind that it might be well for your commercial club to endeavor to interest some manufacturer to build a basket factory in Ada.

### MAY COMPROMISE ON

#### WOMEN'S EIGHT HOUR LAW

Oklahoma City, Ok., Feb. 10.—The compromise reached between representatives of labor union and employees before a senate committee increasing the woman's work day from eight to nine hours, "it is believed, will remove practically all of the opposition. As amended, the measure will provide that females in practically all callings save nurses and domestics "shall not be employed, allowed or permitted to work" more than nine hours in any twenty-four, or a total of fifty-four hours per week. It would have been possible under the act as passed by the House to obviate the penalty by having the women agree to work longer than eight hours but as it will be amended permission to work for longer hours than the measure proposes is directly denied. It would also be impossible for a woman in the specified callings to work twelve hours one day and six another.

Those favoring the bill have met the objection urged by hotel people, whose business demands seven days' service, by showing that the restricted help may be employed for seven hours on six week days, which is equal to forty-two hours total, and have twelve hours remaining for the seventh day out of which the help may be employed nine.

The chief principle of the legislation has been retained, being that excessively long hours, even at intervals, is injurious to health of the woman, and is made impossible.

### Novel Courses at University.

Providence, R. I., Feb. 10.—Several novel extension courses are included in the list for the second semester which began at Brown University today. Among the subjects for which special courses of lectures have been prepared are automobile construction and design, practical nursing, and investment in stocks and bonds.

### Executed in Public.

Collins, Miss., Feb. 10.—The first public execution held in Mississippi in many years took place here today, when Seymour Arnold was hanged for the murder of William Lowry. The hanging was witnessed by several thousand spectators.

## PONTOTOC COUNTY S. S. ASSOCIATION MEETS

Sunday afternoon at 2:30 o'clock the Pontotoc County Sunday School Association met at the First Methodist church, under the direction of Mr. C. H. Nichols, Secretary of the Oklahoma State Sunday School Association, who was ably assisted in his work by his wife and daughter, Mrs. Nichols having charge of the primary department of the work and Miss Nichols presiding at the piano. All of these are experts in their respective lines of work, and out of a wide experience brought to the Sunday school workers of the various churches of Ada many helpful suggestions.

Devotional services were conducted by the pastor of the Methodist church after which Mr. Nichols presented the work of the Sunday school and its importance. He was followed by Mrs. Nichols, who delivered an able address upon the elementary work of the Sunday school, then conducted an Elementary Conference.

In the evening a large audience composed of the congregations of the various churches of the city met again at the First Methodist church to continue the work of the afternoon. After a preliminary song services of fifteen minutes, Rev. C. Stubblefield, pastor of the First Baptist church, conducted the devotional exercises. He was followed by Rev. M. B. Molloy, of the First Presbyterian church, who delivered the welcome address. Mr. Nichols was then introduced and spoke on the theme, "Men and the Bible School." He showed that in order to get men into the Sunday school the school must be made to appeal to them, and to hold them they must be given something to do worth their while. He showed himself at home with his subject and was listened to with the closest attention throughout his address.

This morning the work of yesterday was continued. Practical questions concerning the Home and Cradle Roll departments were discussed. Rev. W. J. Moore, pastor of the First Methodist church, of Sulphur, himself an expert in Sunday school work, came in and added interest to the conference. This afternoon the session continues. Before final address.

Altogether this has been a most profitable meeting for Ada, and many will go out of this conference greatly strengthened for the work of introducing the young life of the community into the kingdom of Christ.

## CAUSE OF IMPURE BLOOD

### Druggist Tells of Best Remedy.

Pure healthy blood is a most essential factor to good health.

Poor, thin, devitalized blood may be caused by weakness of the digestive organs, an accumulation of waste matter in the system, an inactive liver or lack of exercise.

Whatever the cause the best remedy we know is our delicious cod liver and iron tonic, Vinol. It will purify and enrich the blood, tone up the digestive organs, give you a hearty appetite and create strength.

A case has just come to our attention from Schenectady, N. Y. Mrs. Hattie Hall says: "I was forcibly reminded that my system was run down and my blood in bad condition by an abscess forming in my side which required treatment for several weeks. Under the regular use of Vinol to purify and enrich my blood and build up my strength this was soon healed, and my general health was improved."

If you have the slightest indication of poor blood take Vinol. If it fails to help you we will give back your money. Gwin & Mays Drug Co., Ada, Oklahoma. Adv.

Mr. Cullins is doing good work with these boys. The object of the organization is to promote high ideals and right principles of living and the pride the boys take in the work speaks volumes in its favor. Both Mr. Cullins and the boys deserve the cordial support and encouragement of the citizenship of Ada.

**Modern Methods Are Best**

Mammy now uses Calumet Baking Powder instead of sour milk and soda, or the cheap and big-can kind, because it is more convenient—because she knows from experience that the baking will be lighter, daintier and more uniformly raised—that it will keep fresh longer.

Calumet is certain of good results—it is purer and more wholesome than the cheap big-can kind, and more economical in the end.

Give Calumet one trial. If it fails to give you absolute satisfaction return it and get your money back. If you don't get Calumet you don't get the best.

RECEIVED HIGHEST AWARDS  
World's Pure Food Exposition, Chicago, Ill. Paris Exposition, France, March, 1912

**CALUMET BAKING POWDER**

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.
